

THE EVENING BULLETIN

WEDNESDAY, JUNE 24, 1885.

M. R. H. STODDARD has declined the Consul-Generalship at Athens.

CHIEF JUSTICE HINNS, of the Court of Appeals, has decided not to be a candidate for re-election.

Five additional iron mills at Pittsburgh began work this week. The strike may be considered about over.

"FALCON" says that the Ohio platform contains but two planks: "Damn the South," and "Give us offices."

The decrease of internal revenue receipts for the eleven months of the fiscal year ending June 30, 1885, is \$8,620,413.

ALBERT G. BRUBERICK, son of General Stephen G. Brubericke, of Kentucky, has been dropped from the Sixth Auditor's office as an offensive partisan.

As a result of the recent earthquakes in Cashmere, 3,081 persons lost their lives, 70,000 houses were laid in ruins, and 33,000 animals perished.

The cholera continues to devastate Spain and many new cases and a large number of deaths are daily reported. The record for Sunday was as follows: New cases, 769; deaths, 359.

It is rumored that Hon. Henry D. McHenry, of Kentucky, who failed to be made First Assistant Postmaster General to succeed Mr. Hay, who, owing to feeble health, will resign about the 1st of July,

Or the eighty-four Revenue Collectors in the Country, new men have been appointed by President Cleveland in all but twenty-eight districts, and they are expected to be changed by the first of next month.

More trouble is threatened in Rowan County. Sheriff-elect Humphrey persistently refuses to give bond. This leaves the county practically without a Sheriff. Humphrey refuses either to resign or perform his duties.

JUDGE WILLIAM M. BECKNER, who has been selected to present the "Policy of Federal Aid to Education," at the Teachers' Association, on July 2d, is to have the aid of General John S. Williams and Hon. J. S. C. Blackburn in discussing the subject.

The Independents who were dissatisfied with the nomination of W. P. Kimball for the Legislature by the Democrats of Fayette County continue in a state of unhappiness, notwithstanding his withdrawal and purpose to run some one against his successor.

The New York World says: "The somewhere missing two cents having been satisfactorily accounted for to the Treasury, other accounts seem to be becoming in and among the rest there is a call for a balance of \$20,220 alleged to be due to the United States from ex-Commissioner of Agriculture George B. Loring. All sorts of misleads have been charged to the account of the ex-Commissioner in his distribution of seeds, such as sending out cans of boiled tomato seed and other seeds worthless for planting, but there is a direct charge of deficiency in his accounts brought officially to the notice of Mr. Loring by Comptroller Durham, and as such demanding his attention, and worthy, possibly, of incidental mention by the Republican editors who threw up their hats in general jubilation over the return of two missing cents to the Treasury.

The Hero Was Slave.

[Detroit Free Press.]

One of the most touching scenes depicted in basking his wagon into place at the City Hall market the other morning had several errands to do around the neighborhood, and he left his son of fourteen on the vehicle to make a sale of five or six bags of potatoes. The old man had scarcely disappeared when a black conductor came along and threw into the wagon the first chapters of a sensational serial. The boy grabbed for the "dry" and began to devour the literature in chagrin and misery. He called out to the people who came along and asked the price of his potatoes, he answered only one, and him so absent-mindedly that no sale was made. In about half an hour the man returned. He halted at the back end of the wagon and took in the situation and then asked:

"George, what you got?"

"Story."

"What about?"

"Do they kill anybody?"

"They are after a seller, and I guess they'll git him."

"He's the hero I suppose?"

"He is."

"Don't sell any taters, does he?"

"No."

"I thought not, but I reckon I'll soon know the reason why."

With that he leisurely climbed over the fence, reached for the boy, and the shaking up that youth received will make him dream of earthquakes for many nights to come.

You don't want me none of that," said the boy, as he dashed business and dashed the fly overboard. "The Indians not only overlook the hero but they slew him in the most fatal manner, and don't you forget it. Now you git up'n gallop and sell these taters!"

DEADLY SPOTTED FEVER.

A Riverman Starts a Pestilential Plague in Ohio Town.

BELLINGHAM, Wash.—A riverman, a hill town just off the edge of Monroe county, and about ten miles from this city, is greatly excited over the appearance of the deadly spotted fever. One death has resulted, the victim being Miss Rosa Arnold, about eighteen years old. Her sister is lying at the point of death, and members of other families are quite sick.

The authorities are greatly alarmed, and efforts have been thickly covered with disinfestation to save the spot. Miss Arnold was buried after dark, within a few hours after death. The physicians pronounce the disease similar to that raging at Plymouth, England, and the doctor in charge, Dr. John, to the pious John Hayes, a riverman, who came home a few days ago very ill. The excitement is very great, as the disease is expected to spread.

THE MURDEROUS ITALIANS.

The Sunny Sons Bring Into Court and Plead Not Guilty.

CINCINNATI, June 23.—The Italian court was passed to suffocation by a swarthy, blue-tinted Italian. In the dock were five of their countrymen, Agostino Gerardi, Ignazio Sartori, Silvestro Giovanni, Asari, Ignazio Sartori, and Antonio Sartori, all charged with the murder of Filippo Caruso, whose body was discovered in a trunk at Pittsburg, some hours after the murder.

They all pleaded not guilty, and the immediate verdict was that they were innocent of the crime. But both Gerardi and Marciello will be tried as accessories only. Miss Kate Kato and Maurice Baumann, colored, are the attorneys for defense.

Japan's New Vest.

NEW YORK, June 24.—Capt. S. N. Ito and fourteen other Japanese naval officers are awaiting the American Consul. To a reporter they say: "We have been informed by our government to go to England, there to take charge of a new vessel built at Newcastle-on-Tyne for the Japanese empire. We can go to Europe, where we are to meet a force of about one hundred marines and sailors, who are to man the new vessel. This crew will reach London by the Suez canal. The new vessel will be called the 'Kuroshio,' and will be the largest ship in the world. Its name is equivalent to English, but we know its meaning in Japanese. The English are also building a similar cruiser which will be put in charge by our government. We are to be the first to leave Japan, and will soon be on the way to this country. Our destination after leaving England is not yet known, but we shall receive orders there when we shall sail, and were to, after arriving in Newcastle."

Grove Charge Against a Legislator.

SPRINGFIELD, Ill., June 23.—Representative Thomas J. O'Brien, of Springfield, aged 64 years, was charged with assault with intent to outrage Nannie James, a twelve-year-old girl, a page in the state house. Opinions vary as to whether she is a genuine or one of the many girls who will soon be on the way to this country. Our destination after leaving England is not yet known, but we shall receive orders there when we shall sail, and were to, after arriving in Newcastle."

A Note from France.

WILKES-BARRE, Pa., June 24.—David Williams, a member of the Salvation army, and therefore an industrious miner, became crazed with religious excitement and rushed into the street with a knife in his hand, shouting, "Kill me, kill me." A woman, an old woman, however. He attempted to kill his little girl. God commanded him to make him to make a human sacrifice. It took eight policemen to convey him to the station house.

Labor Troubles.

CAIRO, Ill., June 23.—Hungarians and Italians, miners at Elizabethtown, a mile below here, were attacked and driven from the mines by 250 miners from Archangel and vicinity. The invaders were armed, and curiously enough, the Hungarians and Italians went away without resistance. The mob declare they will drive all Hungarians and Italian miners out of the valley.

A Negro Dastard.

CHARLOTTE, N. C., June 24.—Mrs. Bruner, highly respected lady of Charlotte, was found hanging from a tree in the woods a hundred yards distant by a negro named John Bogan and brutally outraged. Bogan escaped, but parties are searching in all directions for him. If caught he will be lynched.

Mitchell and Keenan.

SAN FRANCISCO, June 24.—The hard glove between them, John Mitchell and Jack Keenan, eliminated after thirty-five rounds, lasting two hours and eighteen minutes. Keenan was exhausted and failed to come to time. Mitchell was declared the winner. The stakes were \$300 a side.

The Wife-Beater.

BALTIMORE, June 24.—The case of Henry A. Myers, who was sentenced a few days ago to receive twenty lashes for wife-beating, by the authority of the court, was continued for a new trial. Myers will probably be tickled with the leather very soon.

Justice.

ANNAPOLIS, Md., June 24.—In the case of the state against Howard Cooper, the negro who feloniously assaulted Katie Gray some time ago in Baltimore county, the rulings of the lower court were affirmed. Cooper will therefore be hanged.

Crime Increased.

MONTREAL, June 24.—Lambert defeated Christol in three straight falls at the Montreal theater. The first fall in ton, the second in two, and the third in one minute.

Under the Wheels.

CUMBERLAND, Md., June 24.—Wm. Buchanan, a bakerman on the Baltimore & Ohio road, fell between the cars at Williams street and was instantly killed.

Foster Found.

BALTIMORE, June 24.—The body of Charles Foster, an ex-Union Statesman, was found floating in the harbor. A coroner's inquest was held yesterday, and the body was interred.

"They injure not only overlook the hero but they slew him in the most fatal manner, and don't you forget it. Now you git up'n gallop and sell these taters!"

You don't want me none of that," said the boy, as he dashed business and dashed the fly overboard. "The Indians not only overlook the hero but they slew him in the most fatal manner, and don't you forget it. Now you git up'n gallop and sell these taters!"

FINANCIAL AND COMMERCIAL QUOTATIONS of the Stock, Produce, and Capital Markets, June 23.

New York.—Mony 1,000 per cent. Exchange Government, 12½%; gold, four, coupon, 12½%; gold, four-and-a-half, 11½%; bid, 10½%.

Currency, 12½%; gold, four, coupon, 12½%; gold, four-and-a-half, 11½%; bid, 10½%. The market is very steady and soon became firm under some buying by the cliques. At noon a. m. prices showed a fractional advance, but only slightly, and if their offerings the advances were not only lost, but prices declined ½ to 1 per cent. Since midday there has been a slight recovery, and the market is now absolutely without a feature.

The authorities are greatly alarmed, and efforts have been thickly covered with disinfection to save the spot. Miss Arnold was buried after dark, within a few hours after death.

The physicians pronounce the disease similar to that raging at Plymouth, England, and the doctor in charge, Dr. John, to the pious John Hayes, a riverman, who came home a few days ago very ill.

The excitement is very great, as the disease is expected to spread.

THE EVENING BULLETIN

BOSHER & McCARTHY,
Publishers and Proprietors,
To WHOM ADDRESS ALL COMMUNICATIONS
WEDNESDAY, JUNE 24, 1885.

Now, the husband soft goes tipping,
Just as quiet as a mouse;
On the soap-suds he keeps tipping
For his wife is cleaning house.

FALMOUTH is organizing an independent military company.

At Cincinnati a few days ago stawberries sold for three cents a quart.

The steamer St. Lawrence will make an excursion trip to Cincinnati shortly.

The camp meeting at Parks' Hill will begin July 30th and close August 10th.

A GREAT deal of tobacco has been delivered in this city in the last several days.

By July 1st every iron and steel mill in Pittsburgh and vicinity will be using natural gas for fuel.

The store of W. L. Tucker & Bro., at Bradysville, Ohio, burned a few days ago. The loss was \$1,000; partly insured.

MR. FRANK HAUCK left for Neptok, Ky., this morning, having been employed to paint the large seminary at that place.

MR. C. M. PHISTER has closed the contract with the Ficklin brothers for the wharfboat and will take possession about the first of July.

The steamer L. A. Sherley passed up last night with an excursion party for Pittsburgh. They were paid by several persons from this city.

MR. CHARLES GREENWOOD is doing some artistic work in the way of painting at the residence of Col. J. M. Stockton. He is certainly making his art.

THE BOYD Manufacturing Company, of Ripley, is turning out coal barges at the rate of one a week. They are said to be the best made in the Ohio Valley.

MR. ROBERT FICKLIN has bought of Dr. H. K. Adamson a dwelling in the brick row on Second street, between Short and Wall. The terms were not made known.

It is probable that the gas question will be definitely settled at a called meeting of the council this evening. A number of propositions will be presented and considered.

The annual adjustment of the salaries of the Presidential Postmasters has just been made and under it the allowance to the Maysville office has been reduced from \$200 to \$100.

The following marriage licenses have been issued in Brown County, Ohio, since our last report:

Joseph B. Wilcox and Cora Young.
Alvin C. Nichols and Anna E. Martin.
William R. Stigier and Eva E. Martin.

Miss Kate Niland, who was injured at Carlisle recently by jumping from the second story of a burning building, arrived at home last night. We are pleased to learn that she is rapidly recovering from her injuries.

The seventeen-year locusts are said to be fast disappearing, and thus far have done but very little damage. The continuous rains and the work of the English sparrows have been the cause of the disappearance of these pest.

We are requested to say that the Alsatian Club, of Flemingsburg, will entertain at the Holiday House, on the evening of June 30th, and that an invitation to be present is extended to the Maysville Assembly. The music will be furnished by the Michael Band, of Newport.

YOUR GOOD WIFE, Sir.

The best treasure a man can possess is a good wife. He who has such a treasure ought to do his best to keep her in perfect health. Invalid ladies are sometimes great sufferers. Worry and over-work perform marvels of mischief for most American women. Brown's Iron Bitters works wonders of renovation for the pale, the languid, and the debilitated. Mrs. Lulu Weston, of 191 Market street, Indianapolis, says, "I used Brown's Iron Bitters for general and weakness, and am entirely cured."

The tenth annual convention of the Mason County Sunday School Association will be held in Germanton, Friday, July 24th. Each Sunday school is expected to contribute 10 cents for each officer and teacher and one cent for each scholar, for county, State and international Sunday school work. The constitution of this association, article II, provides that, its members shall consist of ministers of the gospel, officers and teachers of Sunday schools and the scholars in Mason County. All these and all others interested in Sabbath school work are cordially invited to attend.

A. T. Cox, President.

D. R. BULLOCK, Sec. and Treas.

WHAT IS IT?

The readers of the BULLETIN will remember that about a year ago notice was made in this paper of a sea-serpent or something of that kind being seen in the river at this point. Several persons claim to have had a sight of it last year. The thing, whatever it was, made its appearance near the wharfboat, but no one ever saw enough of it to enable him to give a correct estimate of its size or to form any conjecture as to what it was. The "what-it-is" has again, in its annual peregrinations, made its appearance in this locality. Last Sunday night a couple of gentlemen were on the wharfboat or near there at late hour. The night was still, the sky clear and the light from the moon made objects on the water plainly visible. Suddenly their attention was attracted to an animal or sea serpent of some kind that had made its appearance in the river near the lower end of the wharfboat. It was swimming round in the water not very far from them, and making a sort of hissing noise. About a foot of the object's head and body could be seen. It soon afterwards disappeared under the water.

One of the parties, who is an old fisherman, immediately prepared a large fishhook, and baiting first with a piece of bacon and then with a small fish, tried for some time to catch this mysterious animal. The "what-is-it," however, either left the locality or refused to take the tempting bait. The gentlemen feel confident they had caught the thing if they had had a large scale.

Some of the fishermen needn't be surprised, some of these mornings, at finding a veritable sea serpent in their nets. In the meantime the small boys who are in the habit of bathing about the wharfboat, had better be on the lookout.

MR. SAMUEL MC LAUGHLIN, a former resident of this county, died near Greensburg, Ind., on the 10th instant, at the age of eighty-five years. He was a useful and valued citizen of the community where he lived and is kindly remembered by many friends here. The Greensburg Review says of him: "He came to this county in 1884 and located near this city, was married in 1863 to Mrs. M. E. White of Mason County, Ky., and proved to be a kind and affectionate man to his family. As a man, he courted not the applause of the world, but by his silent deeds, and acts of kindness to the orphans under his charge and in his dealings with mankind, he proved to be one of the noblest works of God—an honest man."

GRAND EXCISION TO THE ODDFELLOWS' PICNIC, AT Lexington, on Thurs. day, June 25th.

De Kalb and Ringgold Lodge, I. O. O. F., will attend the Oddfellows' picnic at Lexington, June 25th, leaving on the regular morning train. Mr. W. C. Fiddler will be at Heifer's American Hotel, the evening of the 24th, to issue railroad tickets. All members who intend going are requested to meet him there promptly at 7 o'clock. Fare for the round trip \$2.10.

A Fortune for J. W. Chapin, of Maynard, Mass.

Mr. J. W. Chapin, a dealer in teas, etc., E. Maynard and the Maysville Corner Band, will attend the Oddfellows' picnic at Lexington, June 25th, leaving on the regular morning train. Mr. W. C. Fiddler will be at Heifer's American Hotel, the evening of the 24th, to issue railroad tickets. All members who intend going are requested to meet him there promptly at 7 o'clock. Fare for the round trip \$2.10.

A Fortune for J. W. Chapin, of Maynard, Mass.

Mr. J. W. Chapin, a dealer in teas, etc., E. Maynard, Mass., came into the city to collect \$1,200, predominantly his property. Some weeks ago he purchased from M. A. Dauphin, New Orleans, La., one a ticket of No. 18,807, in the drawing for May 12th, in the Louisiana State Lottery. He received from Adams Express Co., \$1,200.—Boston, (Mass.) Star June 3.

This Auditor has ordered the County Clerks in the respective counties to make out and forward to him a list of all the sales of real estate made in the county during the past year, together with the prices paid for it, in order that he may compare these prices with the valuation of the same and adjoining property as shown by the Assessor's books.

PERSONALS.

Professor C. J. Hall, who has been visiting his son at Covington, returned home last night.

Miss Julia Lloyd, of Augusta, and Miss Lida Lloyd, of Germantown, are guests of the family of Dr. Holton.

Mr. W. F. Gaddis, of Ripley, was stricken with paralysis on Saturday afternoon, and is in a very critical condition.

Mr. Charles Bromley, who is to succeed Mr. Gilman Jacquot as superintendent of the cotton mills, arrived last night.

Miss Sallie Short Wood, the bright little daughter of Mr. George T. Wood, is visiting Miss Gertrude Osborne, on Tuckridge.

Miss Ellen Perrill, daughter of Mrs. Richard Conn, of Ripley, died at Zionville, Ind., on the 14th instant. She leaves a husband and four children.

Mr. and Mrs. James H. Arthur, Mr. and Mrs. Sam. Martin, Mrs. Alice E. Dallas and Mr. Thompson, of Bourbon, have been visiting Mr. H. D. Watson, of Shannon, Ky.

OTHER FRAUDS UNearthed.

THIS TIME IN THE NAVY DEPARTMENT—
The Best Week Yet in the Way of Re-
movals.

[Special Correspondence of BULLETIN.]

WASHINGTON, June 21, 1885.—The Dolphin was only the proverbial "drop in the bucket" in the discovery of Republican Naval administrators. The finding of the Robeson-Chandler regime will be followed by startling developments of the Robeson-Chandler regime, which will pale the Dolphin job into insignificance. Mr. Calhoun, Secretary of War's expert in the field, daily brings in proofs of malfeasance with which to astonish the country. Orders for extra vigilante inspection of the construction of the war ships in Atlanta, Boston and Chicago, now in Mr. Root's hands, will be followed by similar investigations of the Navy Department.

The Internal Revenue reduced the amount of excise tax by half through the dimunition of offices at distilleries. The vacancies will not be permanent, however, as has been claimed by ignorant correspondents. As the BULLETIN knows, distillers do not want diminished the number of offices, but on the fall resumption of distillation in the fall Democratic gaugers and store-keepers will fill the places now vacated by diminished Republicans.

The weekly tally looks up as follows:

Transferred, 27; Internal Revenue, 26;

Postmaster General, 20; Presidential Postmaster,

23; Department Postmaster, 241. In addition about 100 changes have reported.

It is evident that the corps is made by newly appointed officials. So far as known everyone of the appointments have given entire satisfaction to the Democrats of the section they represent.

A few of the fishermen needn't be surprised, some of these mornings, at finding a veritable sea serpent in their nets. In the meantime the small boys who are in the habit of bathing about the wharfboat, had better be on the lookout.

H. S. S.

A dog that knows where to find a bone is wiser than a scholar who has not learned how to make a living.—[John Swinton's Paper.]

Always look at your worries through the wrong end of an opera glass. Examining your joys with a microscope.—[Philadelphia Call.]

It is said that mice are just as much afraid of women as women are of mice. But as their screaming apparatus is not constructed on the same principle, they are restrained from communicating the intelligence to the people in the adjacent towns.

The city of Los Angeles, Cal., has a population of about 35,000. Its streets are lined with eucalyptus and pepper trees, making the business block, which are more numerous and costly than in most American cities of five times the population.

The city of Los Angeles, Cal., has a population of about 35,000. Its streets are lined with eucalyptus and pepper trees, making the business block, which are more numerous and costly than in most American cities of five times the population.

WANTED.—A dog to guard my house, which is a small family. White preferred. Good wages. Reference required. Apply at the office.

WANTED!—A position by a boy of 15 either in a dry goods or grocery store. Object, experience, not money. Apply at this office.

JUST AS GOOD.

Many unscrupulous dealers tell you they have remedies for coughs and colds, equal in merit to every respect just as good as those of Dr. B. F. Dyer and Dr. Lang Syrup, and unless you insist upon this remedy and will take no other, you will be disappointed. Price 25 cents and \$1. Sold by George T. Wood, druggist.

CURE FOR FLEAS.

Fleas are frequently preceded by a sense of weight in the back, loins and lower part of the body, and are often accompanied by a sense of heat in the head, and a desire to scratch. If the person has some affection of the kidneys or neighborhood of the heart, the skin becomes discolored, and the patient feels unwell. The symptoms are present, as a rule, in the evenings, and the patient is apt to complain of the stomach, etc. A moisture, like perspiration, is secreted on the skin, and the patient after getting warm, is a common attendant. The cure for fleas is to apply a poultice of the application of Dr. B. F. Dyer, and the Fleas will disappear.

CHICAGO MARKETS.

FURNISHED BY W. N. NORTON.

JULY 1—WHEAT, 90¢; BARLEY, 60¢; CORN, 47¢; OATS, 47¢; POKE, 10¢; RYE, 10¢; TURNIPS, 18¢; BEETS, 18¢; POTATOES, 91¢; CORN, 47¢; OATS, 47¢; TURNIPS, 10¢; BEETS, 10¢; LARD, 67¢; RIBBON, 4¢; SOAPS, 24¢; OILS.

COWBOYS AND INDIANS

UTE TROUBLE REPORTS VERIFIED
AND MORE OF IT AHEAD.

Massacre for Massacre the Only Way to
Control the Red Devils in the White
River Country—Serious Military
Complications—Red-skin Notes.

DURANGO, Col., June 24.—A messenger from Dolores valley, who has arrived, says the Indians had killed a neighbor named Genthner, seriously wounded his wife and burned his barns, bay stables, The messenger said he thought the Indians who had killed six of a family of Indians. One young buck who belonged to the same family, was wounded but escaped and came to the Ignacio agency, told his story and immediately 200 warriors came to the agency and demanded revenge. Agent Stolteiner met them by agreeing to go with twenty-five of them number to Fort Lewis there to meet the Indians and then proceed to the scene of the trouble and investigate the whole matter and bring back the bodies of their dead comrades.

Accordingly the agent and the Indians passed through here en route to Ft. Lewis. Another messenger arrived during the day reporting that a party of Indians met Joe Dougherty, a brother of Capt. Dougherty, of the Twenty-second cavalry, now stationed at Ft. Lewis, on his way to his home near Mitchell Springs, and killed him and carried his wife into captivity. Capt. Perrine, who was in camp in the Montezuma valley with three companions, sent Capt. Dougherty with his command to the scene of the murder.

The commander at Ft. Lewis hearing of the action of Capt. Perrine, immediately sent a company of cavalry to intercept Capt. Dougherty, fearing he might lose his life. The Indians sent word for the death of his brother and captivity of his wife, who is a daughter of Mitchell, of Mitchell Springs, whom Dougherty's children are staying during the absence of their parents. There are no definite stories as to who committed the trouble. The cowboys claim that it was the Indians, and on the other hand the Indians and their agents accuse the cowboys of carrying out their threat to kill all the Indians they find off the reservation. Troops are arriving and the Indians will probably scatter and return to their reservation.

THE CONDENSER.

Fresh, Pithy News Items Dotted Down for the Skinned Reader.

A soft rain, like a whisper, exists in Grand Traverse county, Mich.

The trial of Joseph Slusser for killing John O'Toole began at Hillsboro, O.

Michael Colgan was arrested for the murder of Thomas Lahay at Durien, Conn.

The much bemoaned sanguineof the state of Indiana begins at Ft. Wayne, to continue four days.

St. Joseph's academy, at Frankfort, Ky., closed after one of the most successful sessions it has ever had.

In the Canadian house of commons a contract was ratified with the Allan Line Steamship company to carry the mails for a subsidy of \$165,000 per year for five years.

John King, president of the New York, Lake Erie & Western railroad, was made a member of the Senate, a former treasurer of the company, for \$50,000 damages for illegal libel.

A party of sub-leutnants of the navy, at Portsmouth, forced an entrance into the residence of an editor and assaulted him, in revenge for some published criticism on their conduct.

The citizens of Nashville, Tenn., have subscribed \$5,000 to prosecute the three police men who are charged with the murder of R. C. Collier, and Alexander Bolton is supposed to be the guilty man.

The Fayette County (Kentucky) Democratic committee has accepted the resignation of Kintzill as candidate for representative and will select a date for a primary election to select his successor.

Golden Howard, who killed an old man named Winkelman four years ago at Jeffersonville, Ky., was arrested in Magoffin county, and returned to Mt. Sterling for trial. A reward of \$200 had been offered for his capture.

Dr. Josiah Harris, who had been a resident of Coshocton, O., since 1857, was one of the few charter members of the Masonic lodge, and was the last out of the charter members of Odd Fellows, died Monday, aged 74 years.

It is discovered that the act under which the Boston Water board purchased Fisher's house for \$128,000, and contracted for \$100,000 worth of machinery, had never been rendered of effect by acceptance by council, and is therefore void.

August Modus, a farm hand, working for Ernst Schreiber, near Bridgton, St. Louis county, Mo., was standing in the rock and killed, apparently by James Winkelman, whom he had quarreled. Winkelman was arrested with a bloody knife in his possession.

Abram Timmons, aged 22, attempted suicide, probably successfully, near Cincinnati, Md., by shooting himself. It is believed that two of his brothers had been drowned at some point in the West Indies. He became melancholy and was in a sort of dazed condition.

At Clinton, Ia., the trial of J. S. Bell, alias J. C. Brock, indicted for bigamy, has ended in conviction. The prisoner claimed that the husband of the woman from Wisconsin, with whom the complainant, was his twin brother, and said it was a case of mistaken identity.

At Stamford, Conn., the body of an unknown man was found by some boys in a well, head downward. The man's arms and legs were bound with a rope, and his head was buried in a pile of carpet. The premises where the body was found have been occupied for some time.

Improved Crop Prospects.

TOPPEA, Ky., June 24.—Information received here from seven counties where the wheat harvest is in progress shows the yield is much better than was expected. If the reports of the various correspondents show the yield will be 15 per cent better than the estimate of the secretary of agriculture for some time.

The Ames Case.

BOSTON, June 24.—The evidence in the Ames pension case has been closed. Counsel will begin their arguments immediately.

TEST YOUR BAKING POWDER TO-DAY!

Brands distinguished as containing pure
CONTAIN AMMONIA.

THE TEST:
Place a can down on a hot stove until heated, then
remove it and add a few drops of water. If ammonia
is present it will be detected.

Remove the can from the heat and add a few drops of water.

If ammonia is present it will be detected.
